2024 Journals Packages

The following titles, listed by subject area, are available as a full standard package or a premium package including Cambridge Prisms and Research Directions titles; a Humanities and Social Sciences (HSS) Package; a Science, Technology and Medicine (STM) Package and as smaller, subject-based packages.

All Impact Factors (IF) and Eigenfactor score (EFS) results are from the 2022 Journal Citation Reports (Clarivate Analytics, 2023); all Scopus CiteScore (SCS) results are from the 2022 Scopus CiteScore metrics (Elsevier, 2022).

 The lock icon indicates that a journal is fully Open Access. For more information please contact your usual sales agent or contact us using the information at the end of this booklet.

Open for submissions: Cambridge Prisms and Research Directions

Cambridge Prisms and Research Directions are fully open access journals programmes, included in the Premium collection or available to purchase separately. Whilst focused in STM subjects, they support connections in cross-disciplinary subject areas. Both series present new opportunities for collaboration throughout the research process. This collaboration embraces a diverse publishing culture and encourages greater diversity across editorial teams, reviewers and authors. All journals operate under open peer review in full transparency to further accelerate discovery and drive knowledge forward.

Cambridge Prisms

Cambridge Prisms is a series of fully open access journals that map out and build connections in cross-disciplinary subject areas to address real-world challenges.

Watch our [video](#) to find out more and discover journals in the series [here](#).

Cambridge Prisms

-  Coastal Futures
-  Drylands
-  Extinction
-  Global Mental Health
-  Plastics
-  Precision Medicine
-  Water

Research Directions

Research Directions is a series of open access journals that will bring researchers from different fields together around the fundamental questions that cut across traditional disciplines. By focussing research on finding answers to such questions, this unique approach will speed discovery by fostering collaboration and knowledge sharing between subject communities.

Watch our [video](#) to find out more and discover journals in the series [here](#).

Research Directions

-  Bioelectronics
-  Biotechnology Design
-  Cyber-Physical Systems
-  Depression
-  Mine closure and transitions
-  One Health
-  Quantum Technologies

Cambridge Open Equity Initiative

The Cambridge Open Equity Initiative is designed to support authors in low- and middle-income countries who wish to publish their research open access but can't access funding to do so. Over 5,000 institutions across more than 100 countries will benefit from the support offered by the Cambridge Open Equity Initiative. Our institutional partners are invited to contribute to the initiative. Each institution's cost to participate in funding the initiative is tiered and intended to enable institutions of all sizes to contribute. To express your interest in becoming a contributing institution and help break down inequities in academic publishing, please contact your local sales representative.
