All published research articles in this journal have undergone blinded-peer reviews, based on initial editor screening and anonymous refereeing by independent expert referees.

### Peer Review Process

Manuscripts are subject to review by members of the professional journal committee, editorial reviewers, and the editor. Author(s) will receive an acknowledgement of receipt of the manuscript. After an initial review by the editors, those manuscripts that meet specifications will be sent to reviewers. Authors are also notified if manuscripts are judged not to be appropriate for review.
